

AC-99 KEROSENE

**High grade clear Kerosene, Effective for heating, lighting
Or as an engine degreaser or surface cleaner.**

Use - Kerosene is a light, oily liquid obtained during the distilling of crude oils and is commonly used as heater fuel and degreaser.

PRODUCT INFORMATION

AC-99 is a combustible Hydrocarbon Liquid. Austech Chemicals offers a high grade kerosene used in a number of industry applications. A light distillate used for general kerosene applications, including heating, lighting and refrigeration, easy to light burns steadily and is free of objectionable odours.

AC-99 is a mixed aromatic, paraffin, naphthenic hydrocarbon solvent which combines good solvency for solvent degreasing applications. Ideal for use whenever effective, low cost cleaning is required.

AC-99 can be included in any formulation where controlled evaporation is required and is miscible with all other organic solvents. It offers good solvency for greases, oils and many other organic compounds and has a lower aromatic content making its use much more pleasant than solvents with high aromatics.

TYPICAL USES

Some of common uses are:

- Kero Heater and Lamp Fuel.
- Blow Lamp Fuel.
- Engine Degreaser.
- Fire Starter.
- Surface Cleaner.
- Oil and Wax Remover

TYPICAL PROPERTIES

Appearance:	Colourless Clear Liquid
Odour:	Aromatic
Solubility:	Not Miscible with Water
Flammable:	Flammable
Hazard Class:	Hazardous Substance (3Y)
DG Class:	Class 3 Flammable (Packing Group III)
Flash Point:	38°C (Abel)
